BOB HUGIN

- Began his professional career as a **Wall Street** banker before moving to a **Big Pharma** company where he doubled the cost of cancer medication
- Parked his company's money **overseas to avoid paying taxes**
- Spent over **\$200,000** of his own money to elect **President Trump**, who is blocking the critical Gateway Project, which would create thousands of good-paying jobs and bolster NJ's economy
- Praised Trump as a "disruptor," even though he's **undermined NJ's economy** and made the state less competitive by **capping the essential property tax deduction** on which so many NJ families rely
- Donated **\$250,000** to **Chris Christie's failed presidential campaign**, even after he wrecked NJ's economy resulting in 11 credit downgrades for the State
- Supports the **Heritage Foundation**, an extreme right-wing organization that pushed to severely curtail Sandy recovery funding

While Menendez has fought to grow small businesses here in New Jersey, Hugin only cares about his enormous wealth.

It's never mattered more. Vote for Bob Menendez on Nov. 6.
